available)

DESCRIPTORS: *Geophysical prospecting, *Seismic
waves, Propagation, Structural geology, Seismographs,
Geophysics, Refraction, Correlation techniques,

In the paper is presented the contemporaneous state of
the correlation method of refracted waves (KMPV) and
the trend of development it shows. The theoretical cal-
culations and experimental data about which this r~~eser~~ate
reports, indicate the possibility and the necessity at the
solving of geological problems to employ a wide range of
