DESCRIPTORS: *Quartz, *Minerals, Liquids, Solids,
Gases, Crystallization, Temperature, Quartz crystals,
Pegmatites.

In the quartzes of granites, migmatites, and pegmatites
solid inclusions are of frequent occurrence, which in-
dicates the great number of accessory minerals in the
melt from which the quartz crystallized. Identification
of these minerals may partially characterize the chemi-
cal composition of the medium. The quartz crystallized
throughout a broad temperature range, beginning with
