DESCRIPTORS: *Light, Motion, *Velocity, Solar
radiation. *Relativity theory. *Optics.

The article deals with the direct experimental ver-
ification of the relativistic theorems concerning the in-
dependence of the velocity of light and the velocity of
the source of radiation relative to the observer. The
experimental setup is described and the results are
given of a comparison of the times of travel over a
(Physics--Optics, TT, v. 10, no. 11) (over)
