CLASSIFICATION OF TEXTURE YARNS (Gliederung
der Texturgarne) [1961] [31]p. 22 refs.
Order from SLA \$3.60

61-16734

Trans. of Deutsche Textiltechnik (East Germany) 1960,
v. 10 [no. 7] p. 378-379.

DESCRIPTORS: *Synthetic fibers, *Threads,
Classification.

The object of this work is the development of a systematic arrangement of the terminology of texture yarns. The form of the fiber used for the production of texture yarns is the starting point of this classification. Based on this, the individual groups of texture yarns and the respective varieties of texture yarns assigned to them are developed. Furthermore, the employed production technology and the characteristic properties of the individual texture yarns are considered as characterizing criteria. (Author)
