SCENE ASPECTS OF THE FRENCH POWER REACTORS  
PROGRAM [ 962 ] 6 pp. Srefa.  
Order from SLA for 60 67-29:67

I. Bousnard, R.  
II. Dambriac, C.

France. Atomic Energy Commission. [super] presented before  
American Nuclear Congress, New York, June 62.

DESCRIPTORS: \*Power reactors. \*Nuclear power  
plants. \*France.

This report contains some aspects of French ex-  
periences with power reactors as chosen from the  
original report. It does not attempt to cover the  
entire scope of the subject. It is certain that the progres-  
sive installation, beginning this year, of the EDF1, the  
EDF2, and the EDF3 plants will provide considerable in-  
formation and will offer answers to the technical and  
operational problems posed. The present report is  
intended to view this new phase optimistically.

Order from CTS or SLA \$1.10                      63-19566

Trans. of French patent 760,355, gr. 1, cl. 4, appl.  
3 Aug 33, granted 14 Dec 33, pub. 21 Feb 34 (appl. in  
Luxembourg, 30 Nov 32).

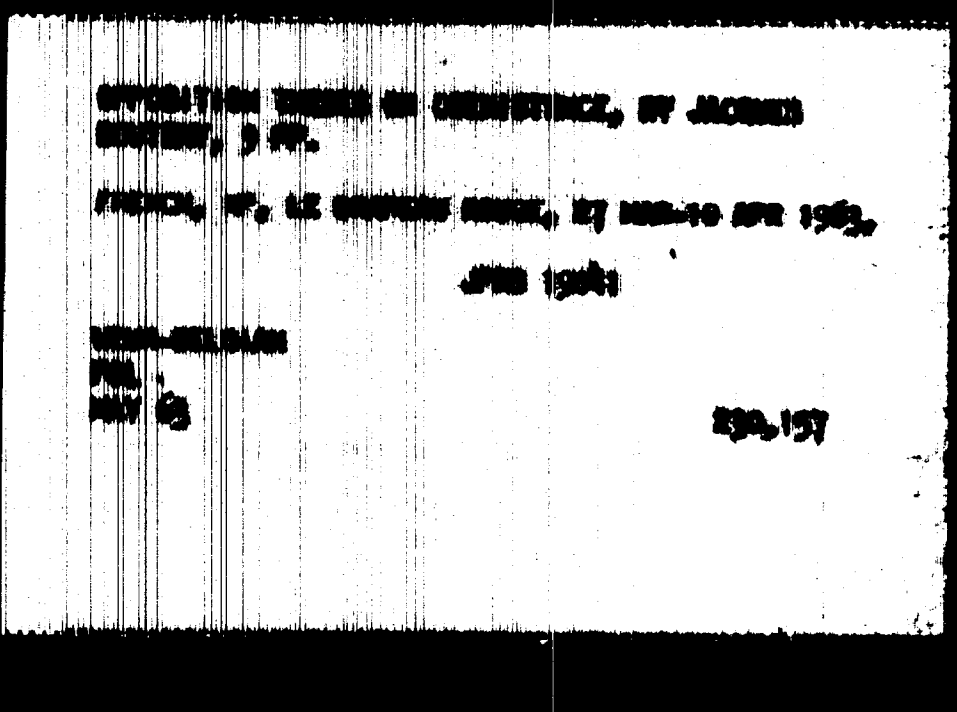

DESCRIPTORS: \*Insect control, \*Pest control,  
\*Ultraviolet radiation, Light, Electric discharge

The purpose of this invention is to bring improvements  
to insect traps, especially those using a light source  
emitting ultra-violet rays. These improvements consist  
chiefly of placing between the light source and at least
