This volume deals with one of the large taxonomic
divisions of the Decapoda, viz., the Anomura, the
hermit crabs. In the introduction, a short anatomo-
morphological outline and also very succinct data are
given on the biology and zoogeography of the Anomura.
Owing to its specific character, the data on the family
Paguridae are preceded by a special introduction, in
which its anatomy is examined in greater detail, while
in the general introduction, the external morphology and
