DIFFUSION COATINGS ON DUCTILE CAST IRON.  
[1961] 8p. (1 fig. omitted) 6 refs.  
Order from SLA \$1.10                      62-10455

Trans. of Wladomirski Hutnicze (Poland) 1955 [v. 11]  
p. 266-269

DESCRIPTORS: \*Cast iron, \*Metal coatings, \*Corrosion  
inhibition, \*Coatings, Thermal diffusion, Chromium  
plating

The process which produces protective diffusion coatings  
on castings of ductile iron during their graphitization,  
though extending a little the annealing range, shortens  
the period, required for the mechanical working and re-  
duces production costs, especially with regard to the  
thermal energy. The diffusion method is, in particular,  
suitable for forming protective coatings on objects  
showing complex shapes and on castings. (Author)  
(Metallurgy--Ferrous Metals, TT, v. 7, no. 9)
