Unidentified. *Amides. *Polymers. *Viscosity.
 *Synthetic fibers. *Textile industry. Molecular weight.

194997

It was well known that Eiler's viscosity formula is
 applicable up to fairly high concentrations. However,
 the viscosity $[\eta]$ calculated by the empirical
 equation of Schultz-Braun, and the viscosity deviates
 from that value when the concentration is high.
 According to many experimental results, it was found
 that the following empirical equation with a simple var
