Trans. of Moscow U. Vestnik. Seriya [3]: Geografiya
(USSR) 1963 [v. 18] no. 4, p. 16-24. (Abstract available)

DESCRIPTORS: *Geography, *Economics, Theory

The author, an opponent of Anuchin's views, charges
that the discussion around the theory of a unified geo-
graphy has been diverting the attention of the Geography
Faculty of Moscow University away from practical tasks
contributing to the growth of the national economy.
Vol'skiy restates the Marxist theory of economic geo-
graphy and calls on economic geographers for more
constructive contributions to Communist economic de-
velopment. (AGS abstract)
