CERTAIN INTEGRALS OF THE EQUATIONS OF
MOTION OF A DYNAMICALLY CHANGING (VARI-
ABLE MASS) PHASE POINT. [1981] 10 p. 1 ref.
Order from: SU. \$1.10 81-10488

Trans. of "Prikladnaya Matematika i Mekhanika (USSR)
1960, v. 24, no. 4, p. 732-733

DESCRIPTORS: *Integrals, *Differential equations, Particles, Motion, Theory

The existence of an integral is established for the total energy of a dynamically changing point (a particle of variable mass) for the case, when the absolute velocity of each particle of the system is collinear and equal to one half of the velocity of the point in phase space. Under this condition, the integral curves of the equations of motion of the dynamically changing point coincide with the geodesic curves in the conferred Riemannian space. (Author)

A new method is described for the experimental in-
vestigation of the p-v-t relations of gases, based on
the use of a nonballast piezometer, and the determi-
nation of the quantity of gas by means of a separable
container filled with an adsorbent. The results are
given of the investigation of the p-v-t relations of
carbon dioxide. (Author)
