CORROSION OF COPPER NICKEL ALLOYS IN SEA
WATER. [1963] [7p] Srefs C. E. Trans. 2805.
Order from OTS or SLA \$1.10 63-24085

Trans. of [Izvestiya Vysshikh Uchebnykh Zavedeni].
Tsvetnaya Metallurgiya (USSR) 1961, v. 4 [no. 4]
p. 145-148.

DESCRIPTORS: Sea water, *Nickel alloys, *Copper
alloys, *Corrosion.

A study was made of the corrosion and electrochemical
behaviour of copper nickel alloys in sea water. It is
shown that when the alloy contains about 20% of nickel
a resistance threshold is exhibited and at this point the
properties of the alloy change abruptly. Measurement
of the potentials of cleaned specimens shows that the
occurrence of a resistance threshold is the result of an
increase in the degree of passivation of the alloy.
