FBIS-4411-88

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

FROM : Chief, FBIS London Bureau

THROUGH : Chief, Operations Group

SUBJECT : Monthly Report -- London Bureau -- March 1988

I. GENERAL

1. A very healthy British economy pushed the dollar down by over 11 cents to the pound during the month with further declines predicted. This adverse ROE of \$1.89 to the pound has contributed to a personal services deficit of almost \$500K at the midway point in the fiscal year. In another unfortunate development for the bureau budget, the UK Government announced price increases of 11 and 5 percent respectively for electricity and gas effective 1 April. ✓
2. Honeywell Bull, the BBC automation contractors, advised the Monitoring Service on 28 March that the system as designed will be unusable unless the size of the hardware is increased, including a new central processor. The contractors also warned that they have no more funds for the project. BBC, which has neither funds nor designated space for the additional equipment, is now considering its options while maintaining that Honeywell Bull must meet its commitments within the terms of the fixed-price contract. The full impact of this development on overall modernization planning and FBIS is still to be determined.

II. OPERATIONS

A. Editorial/Monitorial

1. General Secretary Gorbachev's 14-18 March visit to Yugoslavia kept bureau editors busier than ever with extensive coordination with Vienna and a significant increase in copy. Wordage figures of over 150,000 were recorded on 15 and 18 March, with an all-time bureau high of 185,000 on the 17th.
2. PMU contributed its fair share to the high wordage with coverage of events in Nagorno-Karabakh and its translation of the lengthy draft law on Soviet cooperatives. The unit also quickly processed the pressfax versions of the Soviet-Yugoslav communique and the Warsaw Pact foreign ministers' communique and appeal to NATO.

3. The Iran-Iraq war generated a great deal of high-precedence traffic, with Iran launching operation "Val-Fajr-10" in Iraqi Kurdistan and the two countries exchanging almost daily missile attacks on each other's major cities. Unique Lisbon radio reportage on the attempted coup in Sao Tome added to the high-precedence traffic.
4. Moscow TV coverage of the Soviet withdrawal of SS-12 and SS-23 missiles from the GDR and Czechoslovakia in advance of the INF Treaty ratification provided unique footage of a Soviet missile unit, most of which was relayed to Headquarters over Internet.
5. PMU Chief [] and media specialist [] attended the first meeting of the FBIS-BBC translation standardization committee on 10 March. The Committee drew up a list of subjects for consideration and will meet again after the list has been discussed and coordinated within each organization.

STATAT

B. Coverage

1. BBC made special arrangements for Armenian/Azeri linguist Mark Sarafyan to remain in Nicosia throughout the month to assist with coverage of events in Armenia and Azerbaijan. Upon Sarafyan's 31 March departure, BBC began taking feeds from Nicosia of Baku and Yerevan Azeri and Russian programming. It also temporarily assumed early morning Tehran coverage from Nicosia effective 23 March to allow Nicosia's Persian/Armenian linguist to concentrate on Armenian coverage for the duration of the crisis.
2. BBC arranged for a number of French TV feeds from Brussels to augment coverage of the French election campaign with TV interviews with leading candidates.
3. British Telecom has advised BBC that it expects to upgrade the BBC's 50-baud circuits with the TASS London office to 300 baud by 15 April for the TASS English circuit and 15 June for the Russian circuit. The upgrade should eliminate many of the reception and reliability problems the bureau has been having with TASS since late 1987.

C. Lateral Services

Swaziland Bureau conveyed thanks from the Embassy DCM for PMU's quick response to his request for a 7 October LITERATURNAYA GAZETA article on Africa.

D. Communications

The need to replace Extel machines with computers and to eliminate papertape became increasingly evident when the bureau attempted to replace its aging Telex 23's and discovered that Telex machines producing papertape are virtually unobtainable in

the modern world of communications. An appeal has been sent to Headquarters to speed up implementation of an earlier proposal to replace existing teletype equipment with Victor computers.

E. Technical

1. Installation of the new BBC Ku-band satellite antenna and cabling to the Pressfax room was completed by BBC engineers during the month. FBIS engineers rearranged the Pressfax room to accommodate an equipment bay for satellite receiving equipment, which was also partially installed by BBC. Once the remainder of the equipment is received and BBC completes installation, hopefully by mid-April, the bureau will begin monitoring West European TV for Internet feeds.
2. The new Internet orderwire system was installed and commissioned at Madley and Caversham in conjunction with the early March visit of OTI contractor Dan Wallace. Inclusion of Nefax transmitting capability to the Internet system is still awaiting the return of the equipment from Headquarters, where OTI is making the necessary adjustments and designing an interface box for compatibility with Headquarters equipment.
3. Chief engineer [] has written a new version of the PMU queueing software to accommodate the FBIS message format changes. He has also done the preliminary work on combining this software with BACH, using DESQVIEW to produce an integrated package. STAT

III. ADMINISTRATION

Personnel

1. Editor [] arrived London PCS on 11 March. [] replaces [] who departed PCS for Headquarters on 27 March. STAT
STAT
2. Associate editor [] was married to [] on 12 March. STAT
3. Teletypist [] became the proud father of his second child, a baby girl, on 15 March. STAT

IV. VISITS

To the bureau: Headquarters engineer [] 3 to 6 March en route to Headquarters from a lengthy TDY in Islamabad; UD Economic Section Chief [] on 22 March during private travel for discussions on the pressfax and PMU economic reporting; OTI engineer [] 1-3 March for Internet orderwire installation. STAT
STAT
STAT

From the bureau: Engineer [] to Madley 3 March to assist OTI STAT
contractor [] with orderware installation.
