SUBJECT:

Zero Based Review of BYEMAN Accesses

REFERENCE:

Your letter, same subject, dated 4 November 1988

1. The referenced requirement to perform a review of BYEMAN accesses is now complete at FBIS. The attached "Special Report of Personnel with B Accesses," dated 15 November 1988, indicates that [Redacted] individuals with FBIS have at least a "B" access while a number of these people have additional "B program" accesses. [Redacted] individuals may now be administratively debriefed of all "B" accesses currently held.

2. I am convinced that those individuals maintaining the indicated accesses have provided sufficient justification and that the accesses are a requirement in the performance of their assigned duties.
