MEMORANDUM FOR: Chief, Information Management Staff, D0
FROM: Edward J. Maloney
Director of Information Technology, DA
SUBJECT: License Costs for New Systems Software for the SCC

1. Forwarded herewith is an internal memorandum identifying software license costs for new systems software required by your office for the Special Computing Center. Per our agreement, these are costs we expect that you will fund in FY89 and FY90. We will include the budgeted costs for subsequent years in our base budget and support these software packages thereafter.

2. If you have any questions, please feel free to call on

Edward J. Maloney

25X1

MEMORANDUM FOR: 

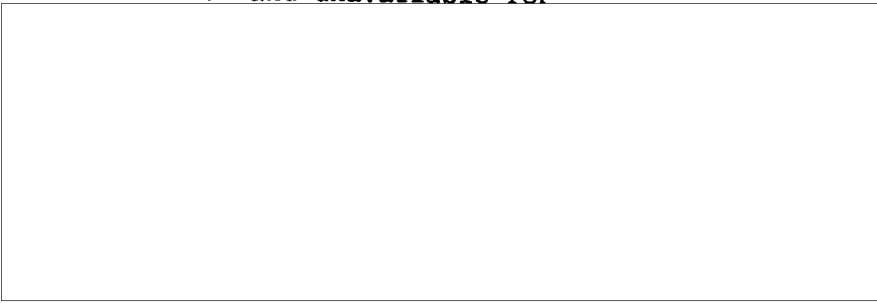

FROM:

SUBJECT: Software Licenses for Message Delivery System 3

This is an outline of the funding required for software licenses required to support the three Message Delivery System 3 processors in FY89 thru FY92. Attachment A outlines the processors on which software will be installed. Attachments B (U), and C (U) describe the licenses required for each processor. The outyear estimates account for software price increases that will inevitably occur. It is expected that IMS will budget for FY89 and FY90 and OIT will budget for remaining outyears.

If the this funding is not made available then the processors that have been procured to provide additional capacity for the Message Delivery System 3 customers will be unlicensed and unavailable for their earmarked functions.
