The "problem" is that when I asked NSA to do this (almost a year ago) I specifically requested that the quarterly tours be for NIOs, A/NIOs and AGers. I was led to believe that this was also your reaction when the Faurer letter arrived. I don't think that Faurer knew the background and was responding to his staff's recommendation when he signed the letter.

Charley Waterman, asked me to take the lead with NSA to establish a point of contact and to expand the tours if possible. I will do this unless you direct otherwise.
