SUBJECT : Videotaping Requirement

Bob

Having discussed the requirement at some length with [redacted] I thought everyth^{25X1} was on track. I really don't understand why the project would be "unsuitable" for TVC. There is a very clear need for a tape describing the capabilities and organization of the operations centers; most of the footage has already been taken and the job should be primarily one of editing and doing a voice over.

Would appreciate if you would discuss with DDI. We can go elsewhere but other centers, such as the JCS, have been hit by us pretty hard already.

NIC #8738-83
5 December 1983

National Intelligence Council

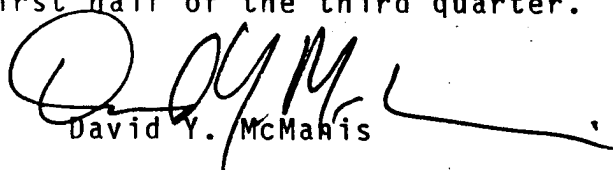

MEMORANDUM FOR: CPAS
FROM : David Y. McManis
National Intelligence Officer for Warning
SUBJECT : Washington Area Operations Center Briefing Tape

25X1

1. As an agreed-upon directive of the Washington Area Operations Center Chiefs Conference, we would like to propose the production of a videotape on the Washington Area Operation Centers to consolidate all information necessary for those senior executives of government, including the President, and those center personnel who support them to better understand and thus obtain more effective service from the Intelligence Community Operations Centers.

2. The film will examine the formal relationships of the centers, their intended audience support and their responsibilities as defined by charter and directives.

3. We request that the project be slated for the last half of the second quarter or the first half of the third quarter.

David Y. McManis
