MEMORANDUM FOR: Director of Soviet Analysis/DDI  
FROM: David Y. McManis  
National Intelligence Officer for Warning/DCI  
SUBJECT: Maritime Missions of Soviet Strategic Aviation Bombers

We were very pleased with your excellent paper. Special acknowledgement should go to  for a superb analysis. In particular, your comments about Soviet preferences for regimental-sized attacks on naval task forces and the use of regimental tactics should be very useful to field commanders. I highly recommend sending this paper to J-2 CINCLANT and CINCPAC.
