MEMORANDUM FOR: Director, Office of East Asian Analysis

FROM: David Y. McManis
National Intelligence Officer for Warning

SUBJECT: Intelligence Assessment March 1984, "Factors
Driving North Korea's Behavior"

1. I wish to commend you and the authors of the subject assessment, [redacted] for a superb paper that clearly and simply addresses the key issues in North Korea's behavior. You have, in our view, seen the world from a North Korean perspective and looked ahead to the dangers that one may well face.

2. Because I consider your publication an early warning contribution, I encourage a very wide dissemination and also recommend a personal distribution to senior commanders and intelligence officers in the Pacific theater. Well done.

David Y. McManis
