

THE DIRECTOR OF
CENTRAL INTELLIGENCE

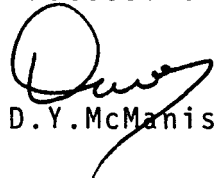

National Intelligence Council

20 March 1984

NOTE FOR: Director, NSA/CSS
FROM : David Y. McManis, NIO/Warning
SUBJECT : NIO Visits

You are undoubtedly aware by now that the NIO visit for 26 March has been canceled. As I told Bob Gates, the main reason a group visit did not work was that the individual NIOs have been making the trip up the Parkway and that the communications are working well. Therefore, we will probably continue essentially the one-on-one program currently underway.

Whenever a new NIO comes aboard, it would be appropriate for NSA to make a special formal invitation. I'll try to help with that process. I have also recommended that our (NIC) Admin office try to keep track of the visits and work closely with the Protocol Office.

D.Y. McManis
