

The Director of Central Intelligence
Washington, D.C. 20505

National Intelligence Council

5 July 1984

Col. Donald Swain
Commander
Air Force Intelligence Service/Reserve
Fort Belvoir, VA 22060

Dear Col. Swain,

As you may be aware, my office is embarked on an energetic and detailed effort to expand the horizons of warning beyond the military-related focus that currently dominates many warning issues. That effort requires work on economic and political issues.

Recently [redacted] performed his annual active duty tour with the NWS and it became very clear to us that Ed's knowledge and background can be key to our progress on economic warning indicator methodology. Ed can help us analytically as well as in the development of our IMA requirements. STAT

I will be talking to MGEN Jim Pfautz about the formation of an IMA validated program to support the National Intelligence Officer for Warning and the National Warning staff (NWS). Therefore, I request your assistance to have [redacted] extended in the AFIS/RE program and assigned to the NWS for training until our larger requirements can be validated. STAT

Our program is receiving high-level attention and our basic requirements will be developed around a key effort chaired by the Vice President of the United States. Your assistance will be greatly appreciated. My point of contact is [redacted] STAT

David Y. McManis
National Intelligence Officer for Warning
