

Declassified and Approved For Release 2013/03/13 : CIA-RDP91B00776R000300150022-9

**NOTIONAL NSI & SMS  
INFORMATION BRIEFING  
CRISIS MANAGEMENT WORKING GROUP**

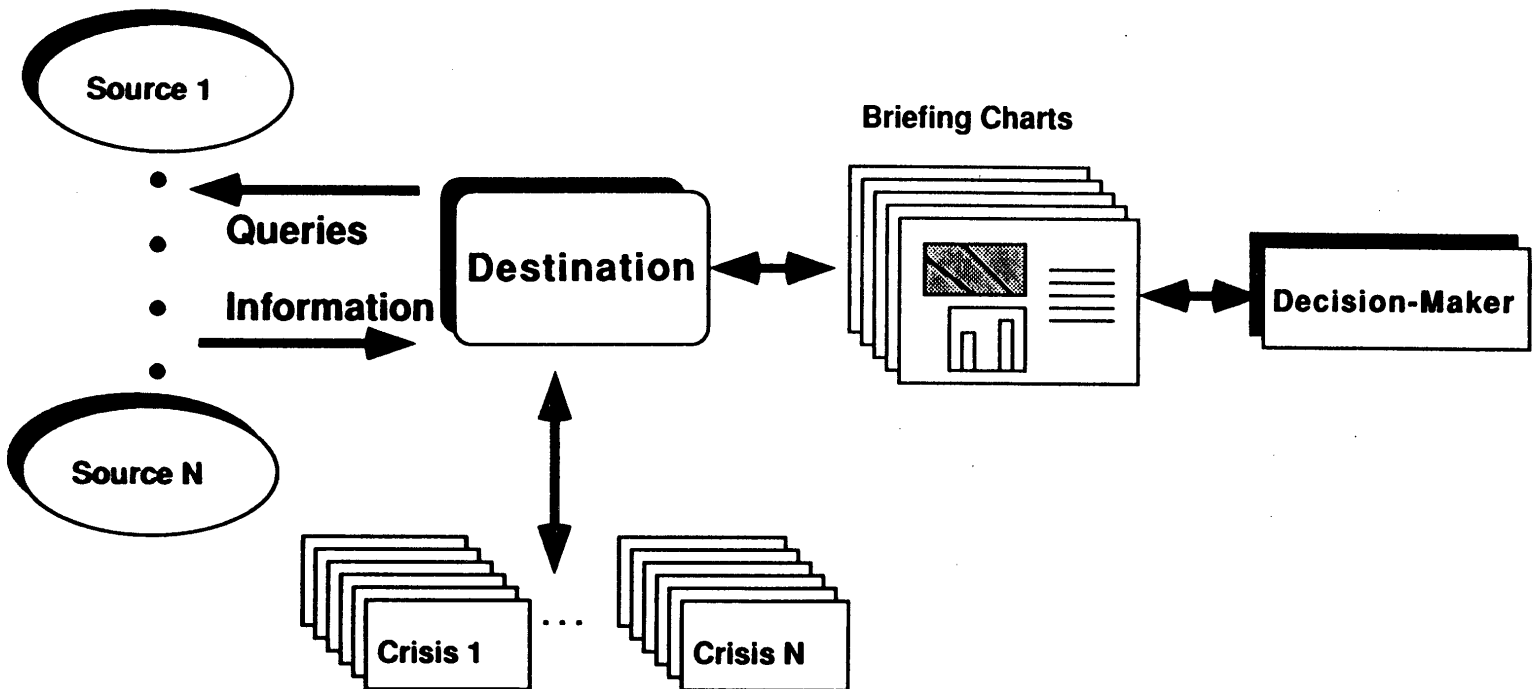

**20 JANUARY 1988**

Declassified and Approved For Release 2013/03/13 : CIA-RDP91B00776R000300150022-9

## **AGENDA**

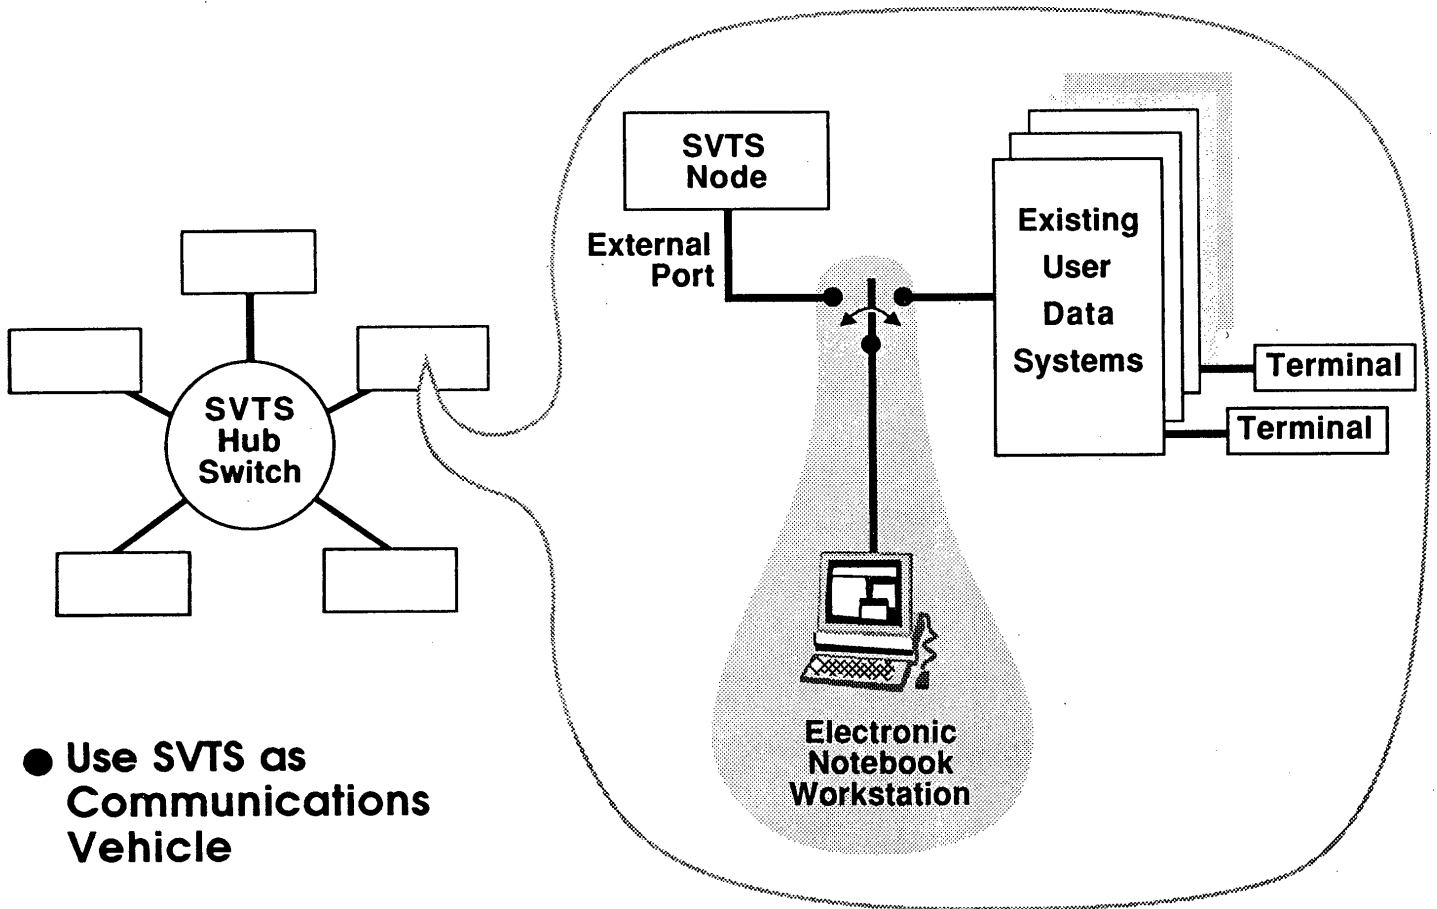

- **Notional System**
- **Approach for Demonstration  
Proof of Concept**
- **Summary**

## National Level Crisis Management

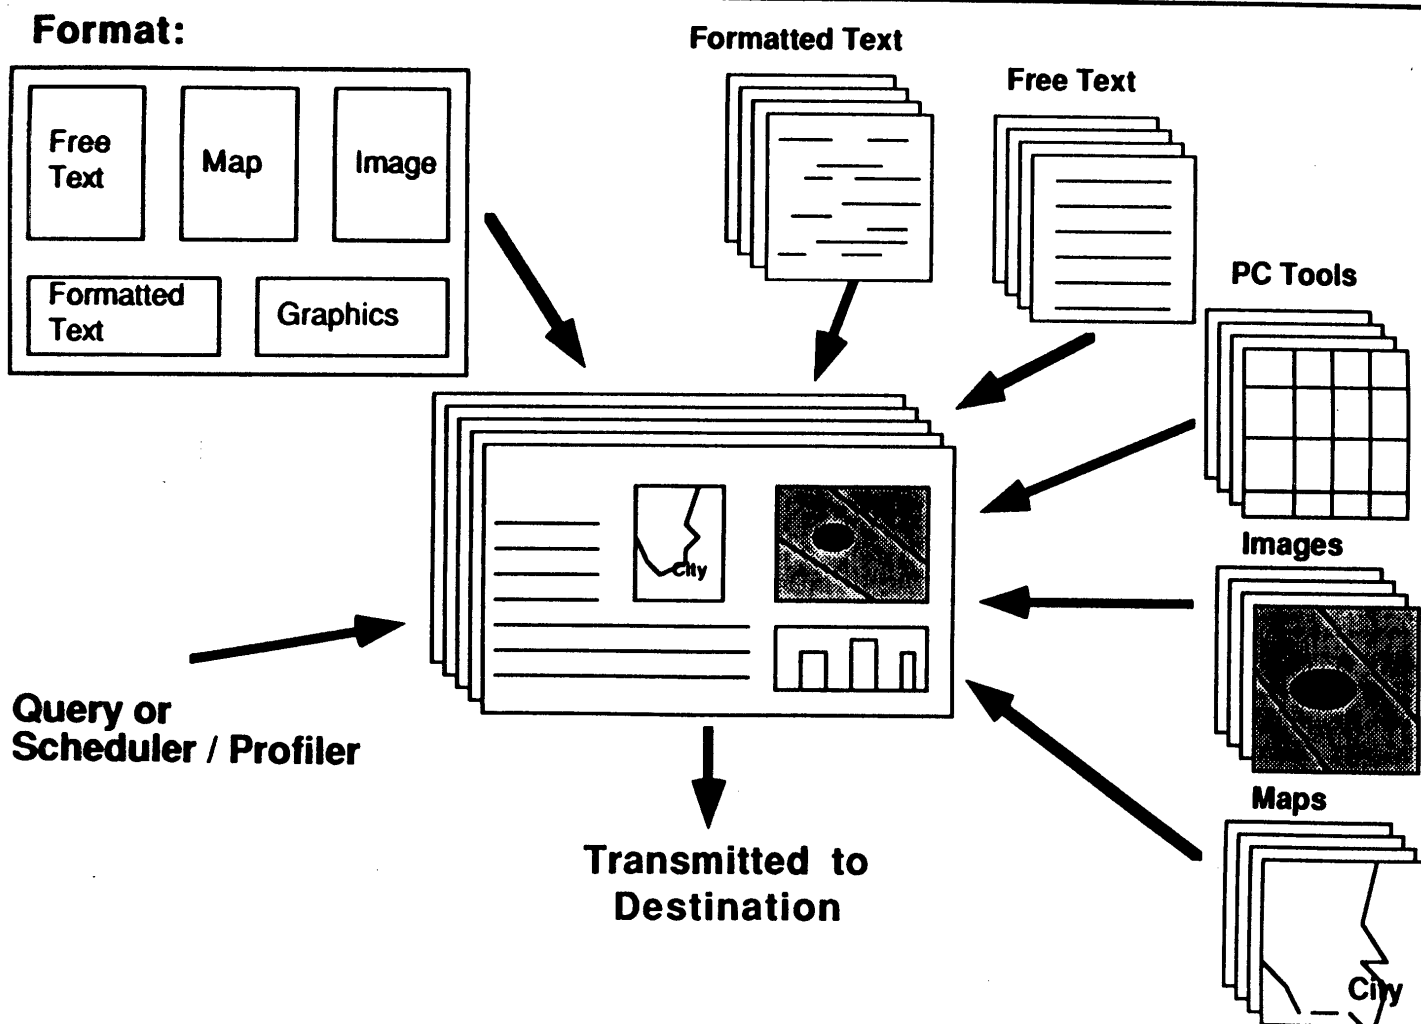

- Technology exists off-the-shelf to build this communications and information management system
- The Secure Video Teleconferencing System (SVTS) will provide the communications connectivity
- The "Electronic Notebook" with hypertext capability will comprise the information management system

## Notional System Concept

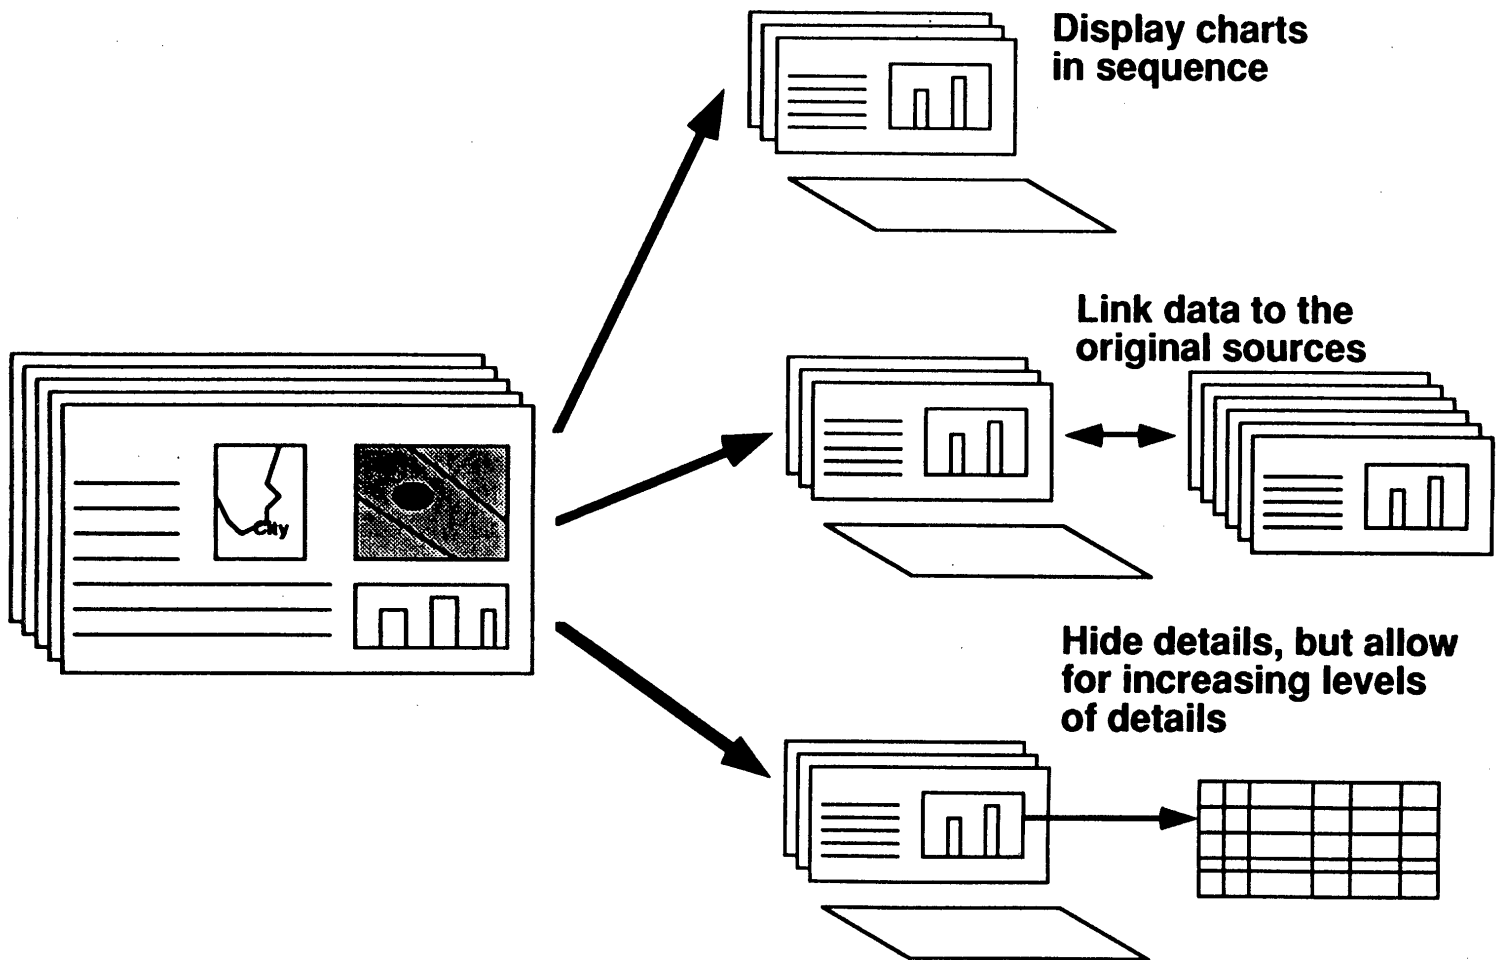

- Use SVTS as Communications Vehicle

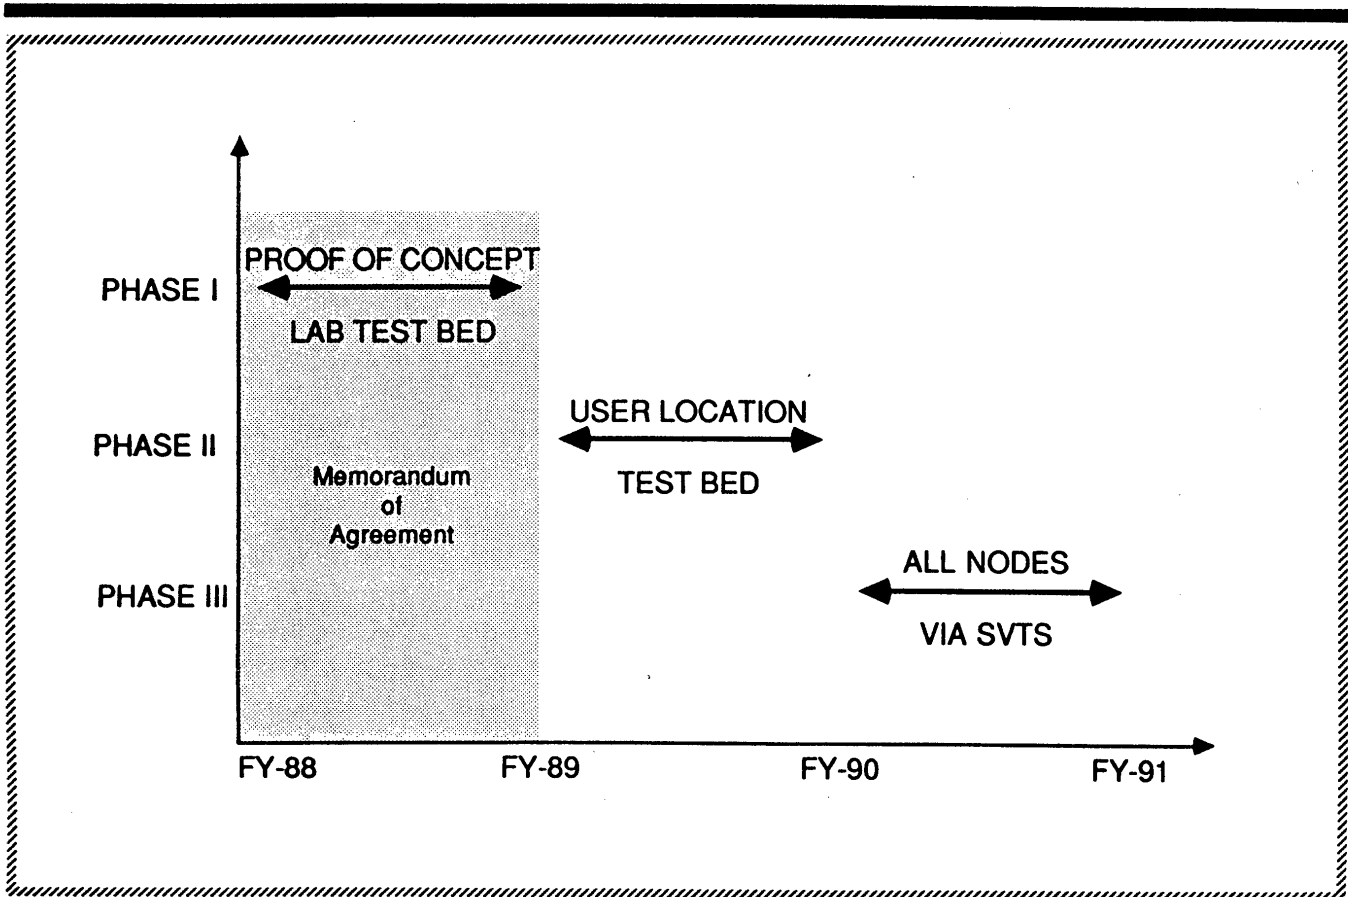

## Electronic Notebook - Source Compilation

## Electronic Notebook - Destination Compilation

## APPROACH FOR DEMONSTRATION OF NOTIONAL SYSTEM

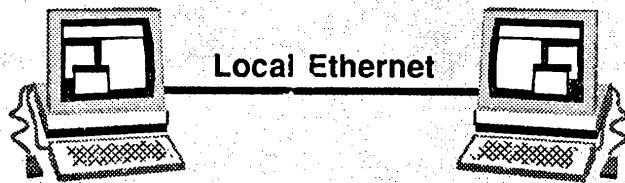

# Prototype Configurations

---

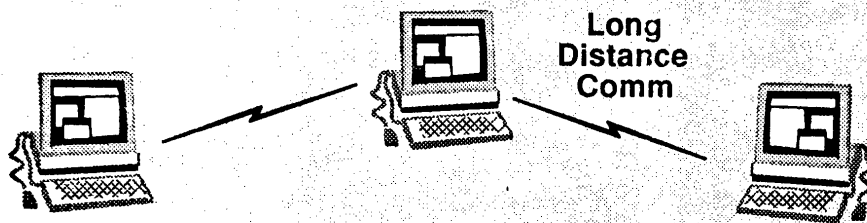

Stage 1

Stage 2

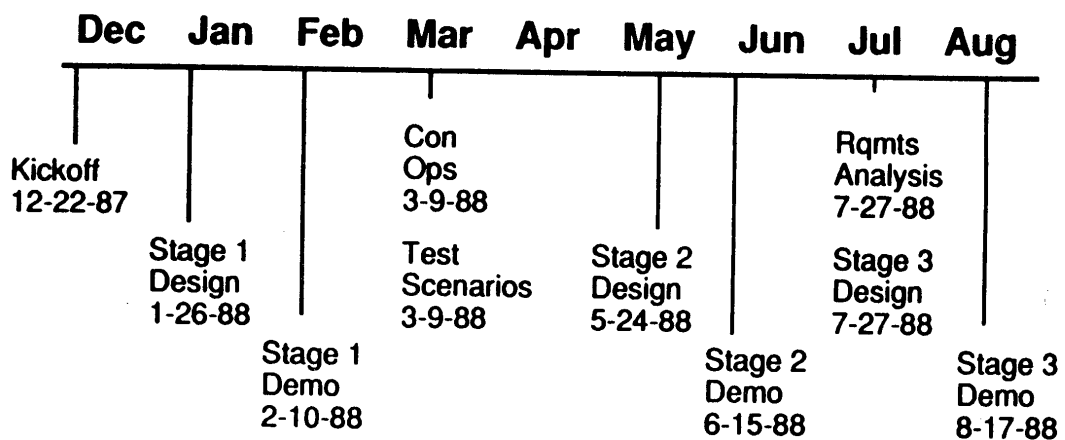

Stage 3

## Phase I Schedule

---

## SUMMARY

- Task is to develop means of passing information from a local database to the White House or another node
- SVTS design includes a number of switchable 56 kb external data ports
- The concept could be referred to as a "mailbox" or "electronic notebook"
- Three-phased approach:
  - Joint DCA-ESD Phase I  
Demo proof-of-concept during FY-88
  - Phase II and Phase III need further definition
