NOTE FOR: D/OLL

Chuck:

1. Ed Levine called to say SSCI is planning to have the policymakers (Weinberger, Shultz) down for a hearing on 11 June to discuss how policy concerns generate intelligence requirements. This to be followed by the DCI and Burkhalter about 19 June to describe how policymaker requirements get massaged and eventually implemented. This to be followed at some unspecified date by representatives of the Intelligence Producers Council and the three IC Committees to describe their roles in the implementation process.

STAT

2. Ed wants to know the Director's availability during the third week in June. He also would like to talk [redacted] about the IPC before he attempts to schedule any further briefings. I will ask [redacted] to arrange for Levine to meet [redacted] and see that he gets the Director's availability.
