Dear Mr. Gregg:

This is to request on behalf of the House Select Committee on Intelligence the National Intelligence Estimate on the Soviet Union which was prepared prior to the Valadivostock Ford-Brezhnev conference.

Due to the press of Committee business I ask that I read this document at your headquarters at the earliest convenience, prior to the delivery to Committee offices.

Thank you for your assistance in this matter.

Sincerely,

Gregory G. Rusford
For the Committee

Dear General Thomas:

Would you please provide the House Select Committee
on Intelligence with the following:

The NIO evaluations for all FY 1975 KIQs except
the following which the Committee has already received:

Numbers 29, 36, 37, 38, 39, 66, and 67.

Thank you sincerely,
^{26, 27, 28}

Vance Hyndman
for the Committee

STAT

MEMORANDUM FOR:
Special Counsel to the DCI

SUBJECT : House Select Matters

1. Attached are two notes from the House Select Committee on Intelligence covering the matters we discussed over the phone this morning.

2. The first is the 20 November note from Rushford, which I understand you have already taken care of by a direct telephone call to him. As relayed to me, you told him that he could read the document but could not take any notes and it was mutually understood that the document itself could not go out of this office to the Committee or its staff without White House approval. When I spoke with Rushford after he had finished his initial stint of reading, he indicated that the Committee would want the document and would file a follow-up request for it. We will, therefore, go over it to see if there are any hooker passages and let you know so that you can take whatever steps you deem necessary to secure White House approval, blanket or conditional.

STAT

3. The second is a 17 November note from Vance Hyndman to on the FY 1975 KIQ Evaluations. Here, a little background:

a. As you probably realize, each fall (starting in 1975) the NIOs prepare a "succinct, arbitrary and subjective" (the DCI's words) evaluation of the Community's performance with respect to each of the preceding fiscal year's Key Intelligence Questions. (Each NIO prepares the evaluations for those KIQs which fall within his or her area and for which he or she are responsible.)

STAT

Dear [Redacted]

ILLEGIB

As I indicated to you yesterday, I would like to review certain documents and data and formally request on behalf of the Select Committee on Intelligence your transmittal of the following:

1. Data on the composition of the IC staff according to office function that indicates professional origin (e.g. service, university, intelligence agency) and rank, degree, or GS-rating.
2. The aggregation and analysis of the pilot Key Intelligence Questions Evaluation Program.
3. The NIO evaluations for the following FY 1975 KIQ questions: 26,27,28, 29,36,37,38,39,66,and 67.

In addition, I would request the following information not discussed in yesterday's interview:

4. A breakdown of the numbers of personnel (intelligence community wide) engaged in analysis and estimative tasks. This breakdown would distinguish respective aggregate figures for each agency and military service and intra agency figures down to the desk level. It would include numbers and location of collectors who have initial responsibility for aggregation and analysis.

We would appreciate this data by November 7, 1975.

Sincerely,

P. Vance Hyndman
