MEMORANDUM FOR: D/DCI/NI and NIOs

SUBJECT : Advisory Panel Nominees - Rough Categories of Prime Expertise

Most of the Panel nominees can fairly be claimed to be generalists, and they have been put on the list for that reason. But most generalists have a primary orientation or specialty. The categories below group the alphabetical list roughly by primary specialty. It is intended to give an idea of the adequacy of geographical-functional coverage provided by the list so far. It reflects a discussion on 7 September with the NIOs. It numbers more than 50, to allow for refusals or people whom the DCI may not wish to include.

Here is a list of Advisory Panel nominations, presented in two formats. One is organized by primary specialty, the second in alphabetical order. The latter includes notes on who nominated them, their present positions, and their specialties. There are still some rough spots or blanks in the notes, but I suspect you will want to have one more meeting on this at least before we forward anything to the Director and the rough spots can be smoothed out and the blanks filled in then.
