MEMORANDUM FOR: Project Director  
THROUGH: Chief, Operations  
SUBJECT: Calibration of AQUATONE Camera Systems

1. As indicated in the attached enclosure it has been suggested by the Technical Intelligence Branch of HTA that a means could be developed for increasing the intelligence potential of AQUATONE photography for the extraction of technical intelligence.
2. By means of the proposed field calibration procedure, the information necessary for precise determination of metrical data will become an integral part of each mission accomplished and useable as requirements demand.
3. It is proposed that a conference between personnel of HTA and Operations be arranged so that a better understanding of the problem and possible approaches toward its solution can be achieved.

Chief, HTAUTOMAT
