MEMORANDUM FOR: Executive Secretary, Utilization Advisory Board

SUBJECT : Request for Special Use of
TALENT Derived Information

1. Permission is hereby requested to use the attached simulated report, which is based upon TALENT information but attributed to an SR Division source, in support of a planned CIA operation.

2. It is not intended to disseminate this report outside of the SR Division as the requirement for this bit of information has been generated by certain aspects of one particular operation.

3. The format of the attached report, which will be seen by the non-TALENT cleared case officer of the SR Division, is one which is used regularly for dissemination of generally reliable information from a restricted component of the DDP. Individuals, if any, questioning the origin of the information will be referred to the SR Division Reports Staff. A TALENT cleared individual in that staff who handles information of a generally sensitive nature will, if pressed, suggest that the information is from the restricted component cited above. If the point of origin is further pressed, an individual in the restricted component will be asked to admit that the information is his own, on the basis that it is a sensitive SR operation that must not become common knowledge. Similar arrangements have been made in the past with other sensitive (non-TALENT) information.

4. If approved for release, the report will be used in the following ways:

(1) Shown to the SR Division case officer concerned with this operation.
