Miss - DRD Consultation

20 September 1979

Mr. Christopher G. Trump

STAT

Dear Chris:

Just a note to thank you for the report and for the comments in your 28 August memorandum. It was a pleasure dealing with you and Steve, and we have, needless to say, found much food for thought in your observations and recommendations.

I have given wide circulation to the report and asked the DRD to come up with a plan concerning implementation. We have also asked all our editors to read it and comment on it, and also asked the bureau chiefs to forward their thoughts.

I think the effort was very useful and should give us a good framework for thinking about improvements to our operation.

With regard to the considerable typing job you had to arrange, although normally a consultant contract implies that the contractor will submit the report in final form as part of the fee, I have asked the finance people to approve payment of these typing charges. Keep your fingers crossed.

Best regards to both of you, and I want to stress that it was refreshing to get an "outside" professional view of our publication effort. I hope we can keep in touch.

Warmest regards,

STAT
