LOGNOTE -- Chief, Operations Group, 10 March 1986

1. [redacted] West Europe Bureau Site: On 7 March [redacted] and I visited RECD to discuss activating the DOD focal point system on behalf of our West European Bureau site. We met with C/RECD [redacted] who will also be involved, was out of town). We gave them a draft of a formal letter laying out FBIS requirements and location preferences, which they said provided enough information to initiate contacts with the focal point system immediately. [redacted] felt optimistic about getting initial tasking between RECD and the focal point system completed this week, so that FBIS can be brought in to discuss preliminary findings shortly thereafter.
