LOGNOTE -- Chief, Operations Group, 16 May 1985

2. (Williams) During a phone conversation with [redacted] today he mentioned that he didn't want to be a name-dropper but he had just come off the tennis court after a game with the Ambassador and had remarked that we might want to add a few new satellite dishes at the Panama site in the near future. The Ambassador said he had no problem whatever with that. Don added that the Ambassador would, however, be less positive about any U.S. staff increase.
