moscow tv: observer on u. s. veto of un draft resolution

1d040137

moscow domestic television service in russian 1700 gmt 3 aug 83

((from the vremya ~~news~~cast; political observer farid seyful-mulyukov video talk))

((text)) the united states has vetoed the security council's draft resolution which demands that an end be put to israel's repressions and lawlessness on occupied arab lands. the washington politicians invariably behave as protectors of crimes perpetrated by zionists on arab lands.

tel aviv's reaction to the voting in the security council was unequivocal. the u. s. veto had been received in israel as approval for its policy of aggression on the west bank of the river jordan and the Gaza sector where 1,500,000 arab palestinians are suffering under the yoke of occupation.

quite recently president reagan had practically sanctioned the further building of israeli settlements in the river jordan valley. having obtained the support of the white house, the tel aviv rulers are carrying out the colonization of the palestinian lands at a furious rate. many arab towns and settlements of the west bank are literally surrounded by the israeli military settlements. pogrom organizers from among ultra-wing zionist organizations are

the bosses in that area. such thugs, wearing masks, had carried out an armed attack on the arab students of the muslim college in the town of al khalil where about 40 persons were killed or wounded. when these murderers left having carried out their black deeds, the israeli command had sent hundreds of soldiers to al khalil and blockaded the town by having introduced there a curfew. the crime was completed by begin's soldiers. they killed the arab girl in nabulus where a protest demonstration took place against the zionist crimes.

the aggressors sweep away the houses of the indigenous population with tanks and bulldozers, they seize their gardens and fields, and water sources.

emulating the south african racists, the israeli authorities are hatching plans aimed at creating special reservations for the arab population. today you may be placed in a racial isolation area but if you protest you can find yourself in a concentration camp. this is the behavior of the israeli aggressors in southern lebanon where the ansaw death camp had been set up. they would like to spread this practice also to the west bank of the river jordan.

we must fill these territories with our colonies, then the arabs would simply become cockroaches swarming at the bottom of a bottle. this infamous statement by rafael eytan, former chief of the israeli general staff, expresses the essence of the misanthropic policy of israel on occupied arab territory.

the towns on the west bank of the river jordan are fill with wrath. mass scale strikes, protest demonstrations, resistance against the aggressors are assuming a nationwide nature.

the arab people of palestine are waging a brave struggle for their national rights which is supported by the entire progressive mankind.

and so when the security council had worked out a resolution demanding that an end be put to israel's lawlessness on occupied lands, tel aviv's strategic ally -- washington -- once again come to its aid.

the world's public regards these u.s. actions as a fresh manifestation of the anti-arab imperialist policy. the voting in the security council has once again revealed the true essence of the policy of the white house in the near east.
