102 anon on ataturk's role in formation of turkish youth. it is significant that ataturk proclaimed 19 may as sports and youth holiday. in his speeches he stressed importance of youth for future of country. as our listeners know, soviet union has been beside ataturk in his struggle against occupying imperialist forces. ataturk then reminded youth that economic development was no less important for country. youth have not forgotten ataturk's directives. it is clear that there can be no talk of turkey's independence at a time when u.s. and nato bases continue to exist on its soil. this situation is against ataturk's legacy to the youth.
