98 viktor olin on president reagan attempt to lift sanctions on latest f-16 fighters for israel, points out that by permitting israel to get more fighters reagan is telling israeli ldrship that he not only forgets their sins but is condoning other actions like aggression against lebanon. fact that israel will get 75 f-16s only in two yrs indicates long term nature of u.s.-israeli plans for milit pressure and aggression against arab countries. 99 "arab palestinian ppl corner": a) sergey korolev "inevitable admissions of invaders," says that israeli invaders have been obliged to admit that ther had been more than 4,000 acts of resistance to their occupation in 1982, after having claimed that plo and palestinian resistance had been eliminated. after galilee operations israel failed to liquidate palestinian resistance. resistance shows that things in west bank are going not according to camp david deal but according to decision of 16th conf of palestinian natl cncl. arafat quoted onstrengthening palestinian steadfastness; b) nationalist song; c) recorded talk by talal maji, mbr of plo exec cmtee, on persistent americanaid to israeli aggressor since 1948. america strengthens zionist entity because it carries out its policies in mideast. this aid culminated in beirut where america told leaving palestinian fighters that it would protect remaining civilians, but it failed to do so. result of this unkept promise was massacres of sabra and shatila for whom palestinians believe that america is primarily responsible; d) nationalist poem by palestinian poet mahmud darwish, lenin peace prize winner. 102 igor sheftunov, saying that accusations against tudeh party
in iran are coupled with attacks at marx's teachings; discussing
success of marxism since formation of first soviet government by
lenin and says that marx gave workers weapon of strength in their
struggle with exploiters. workers in many countries achieved
socialist revolutions; in iran, too, 4 years ago shah's regime
was overthrown. But iran's rightist forces succeeded in
stopping revolutionary process and various bills such
as bills on land reform and foreign trade nationalization
there were approved by majlis. sheftunov continues by discussing
how bourgeoisie is getting stronger in iran and quotes tudeh
party statement to this effect. he then goes on to refer to
persecution of tudeh party and to anti-communist
hysteria and concludes by discussing tudeh party's support
for iran's constitution and success by marxism in world today.

105 lev.nikolayev on announcement in pakistan that 300,000 afghan refugees are to be resettled in baluchistan. pakistani official says afghan presence has damaged economy. foreign observers wonder whether pakistan is using afghan counterreves to help crush antigovt protests; they also note that new refugee camps will become permanent training bases for afghan counterreves. there are no signs that pakistan intends to allow afghan refugees to return home despite fact that would be positive contribution to solving refugee problem.
