13 rudolf kolchanov, deputy chief editor of trud, on dangers of nuclear weapons. points out that soviet union had been challenged by usa in development and production of nuclear weapons. ussr conducted its first atomic weapon test in 1949; first u.s. atomic powered submarine was put into operation in 1960 and ussr did this 4 years later. then usa started developments of intercontinental ballistic missiles and ussr followed with its developments some 5 years later. points out that further development of nuclear weapons makes weapons control more difficult and is followed by development of other mass annihilation weapons. ussr has been challenged by usa to react in same manner. (6 min: german 1600 port 2000)
