48 georgiy tanov assembly and significance for africa: speakers
frequently metnion pentagon's attempts to picture u.s. armed
forces as means of deterrent and defense, a peace champion and
guardian of freedom and democracy. It is not easy to link ideas
of peace and democracy to most powerful army of imperialism which
is trained in spirit of all permissiveness and superman qualities.
shultz said u.s. govt was dedicated to idea of promoting peace
and democracy as reflection of america's might. that does not quite
make sense, you will agree. defensive functions of armed services
of usa are being replaced more and more often with aggressive,
terrorist ones. this point was made with anger and concern
at current prague assembly. (5 min: engafr 242000 swahili 1730/
