94 lidiya suyetina: "peace, tranquillity in cyprus republic."
the days are approaching when incidents led to partition of cyprus
9 years ago. incidents of august 1974 have affected most of the
people in the island transforming one-third of population
into refugees. two cyriot communities coexisting prior
to these incidents have presently become hostile to each other.
great revolution in soviet union ended similar hostilities
existing in country. that is why soviet statements on island
always point out to equality of two communities and to need for
coexistence. there is no doubt had imperialist forces kept out
of the affairs of island peace and tranquillity would prevail
in cyprus. as it declared 9 years ago, the soviet union is still
in favor of an international conference to be convened under
