( 52 volodia teitelboim commentary: there is much speculation  
on jarpa's stance. jarpa is said to be a man with power of his  
own, with an intention to endorse democratic opening. but everybody  
knows jarpa advocates fascism. however, his boss, pinochet, has  
bluntly stated that jarpa only follows his own instructions.  
jarpa is nothing but a docile servant of pinochet. the dictator  
believes that he is the state and that everybody else must follow  
his orders. what has been called dialogue is nothing but  
an order by pinochet. jarpa obeys all orders by the dictator.  
for his part, tyrant has said that armed forces would repeat 1973  
events if necessary. this means that pinochet is a monster by  
nature. pinochet is staging this game of dialogue in which some  
politicians are playing, but he has given assurances that he will  
never tolerate openings. it is necessary to point out that  
pinochet is holding on to power, seeking to drive wedges into  
opposition. chilean reactionary movement, a really strong one,  
could do either with or without pinochet. but the dictator

still has some cards to play. he is using jarpa for game of  
dialogue. however, there is intention to perpetuate pinochetism,  
either with or without pinochet. this would imply that everything  
would remain unchanged. but it will be difficult to disregard the  
public, who will not tolerate these high-level deals. people  
want real changes, and their first demand is that pinochet resign.  
jarpa's mission is to save his master. but people will stage a  
still greater protest on 8 september. (12 min: spanchile 2000)

53 chile: "two words" feature by gascon vargas: el mercurio

has said that dialogue is being endorsed by somebody who is supporting jarpa reyes actions, meaning the armed forces, but the ones who are actually conducting all this maneuvering are the state department and cia. real political head of chilean cabinet is not jarpa reyes but u.s. ambassador theberge, who has full powers to handle the situation. government officials have to accept theberge's maneuvers with opposition because they know that regime is still in power thanks to u.s. support. but usa has upheld democratization process, in keeping with a plan drafted after cia disclosed weakness of regime. situation is same as when roosevelt said that "somoza is a son of a bitch, but he is 'our' son of a bitch." usa might now save its local son of a bitch, pinochet. 118 yevgeniy ivanov on 44th anniv start of ww2, noting war began with nazi attack against poland on 1 st sep 1939 and ended with unconditional surrender of militarist japan in september 1945, pointing out that barely three years later, sir winston churchill called on u. s. to drop an atom bomb on moscow should russians refuse to leave berlin and east germany, recalling that in beginning of war nazis germany's main objective was to liquidate socialism as a social, econ and political system and then to attain world domination, claiming today, too, one little-publicized washington document says bluntly that u. s. aims at liquidating socialism as a social, and econ system, concluding that new cold war crusaders cannot abrogate laws of social development, while crusades in nuclear age can only lead to a universal catastrophe.
