111 anon "Financial octopi of imperialism, d iran," re imf

and development bank meeting in washington some time ago and to iranian representative's remarks at this meeting. discusses inequality between developing and capitalist countries as far as fund's policies are concerned, and says that it is noteworthy that credits are extended always to private sectors in developing countries. adding that united states is especially effective in these two organization's policies, with credits going largely to dictatorships and racist regimes. both organizations are used to inflict pressures on islamic republic of iran, therefore demand by iranian representative at imf and development bank annual meeting in washington to end the inequality in relations with developing countries was completely logical.
