83 mikhaïl glebov re u.s. news and world report that israel will build settlements on occupied territory of lebanon similar to its settlements on west bank, explains ever since israel came into being it has been seizing foreign territory and uprooting local ppl. magazine of world zionist organization (kibunim) suggests recarving map of whole of mideast particularly by splitting number of arab countries, in lebanon and syria, and establishing small entities there onconfessional and ethnic principles. there is another plan of this kind prepared couple of years ago proving for turning lebanon into confessional confederation of autonomous mini states and possibly for establishing independent states in northern and western syria. This plan was not drafted by israeli ldrs but by two american mideast experts (shuredini and mcLaren), (enginter 1810)
