113 anon re reagan visit to south korea, citing u.s. financial aid to milit regime. south korea plays important role in u.s. intl plans, witness kal plane incident. neither washington, tokyo nor seoul, directly involved in incident, have given answer to any of questions which could shed light on what really did happen. reagan has more than once called south korean regime an example of democracy and prosperity in far east, but country's trade deficit is chronic; inflation and unemployment are rife. usa supported suppression of uprising in may in 1980 in one south korean city.
