Subject File:
Personal
Computers

14 July 1983

CONCLUSIONS

1. Stand-alone personal computer have not had a significant impact.

2. Within 2 years, >90% of CIA population will be using VM or WANG for automation.

3   More powerful communicating workstations will be provided in the evolution of the Delta Data and WANG devices.

4. Stand-alone personal computers will not have a significant impact in CIA.

5. ODP should look for opportunities to transport popular PC software to VM.
