B. OBJECT ON SECOND FLOOR

o SENSE OF A PERSON SEALED INSIDE THIS.

OVERALLo General Location

- old building near/on a low dam, shallow ^{slow} stream
- may be a warehouse; or possibly mfg. of some product using cement or clay, a possible boiler or containers, or casings. May not be too active.
- Building is like an old mill.. old heavy stone construction possible. (or even that way)
-
- there may be an odd feature about this low dam:
 - two (split?) levels?
 - deep holes in river bed below dam
- may be a bridge nearby.. (old type) ^{stone}
- at edge, or beyond, a town/city.
- (?) - (or possibly, further away in remote area.. see #2)

o Implications

- Not good
- Possibly, target will be sealed in some type of container, tossed into river here.
- may already be sealed, but not thrown in.
- Some of stric/suffocation (^{may} Not related to initial bunk escape event).
- may already be dead. HOWEVER, "sealed-in sense" may
