MEMORANDUM FOR THE RECORD

SG1A

SG1A

SUBJECT: Summary of Unconfirmed Source Information Pertaining to [REDACTED] (S)

SG1A

1. (S) The following information was provided in response to a query about the type of work that [REDACTED] is involved in and where the work is conducted:

SG1A

a. (S) The source described [REDACTED] as an expert or professional, an analyst. He described him in the process of lecturing/briefing a select group of people in a large room. [REDACTED] was using a map like display with an attached overlay containing red and green symbols. The map was positioned on a wall in front of the room and was flanked by blue and green curtains that could be pulled over the map to hide it. The source believed that the map was a military strategy map and that the symbols represent groups of something.

SG1A

b. (S) Something about the lecture/briefing prompted the source to believe that [REDACTED] normally works as an Analyst who's office is in the South side of the Pentagon (see Sketch in TAB B).

SG1A

c. (S) The source was not sure about the room number, however, he seemed to think that it contained a letter A or B and several ones and zeroes. He said it seemed like 111, four ones or 1211 with a zero somewhere and the letter A or B.

d. (S) Although the memory of the source was somewhat vague on the room number he felt that the information about the lecture/briefing situation was accurate.

2. (S) This data should be evaluated as soon as possible and comments provided to the undersigned. The comments will be used to evaluate the accuracy and intelligence value of data provided by the source.
