D-70	#11	Geo coordinates and a request for a description of the area surrounding these coordinates.	Geo coordinates and a request for a description of the area.	None	8 Oct 80	Source indicated that he had nothing other than blue sky, green trees, RR tracks some- where. Nothing else except country side.	Analyst stated that "Source has provided some new information here which needs more research.
	SG1B	[REDACTED] NOTE: The 94" is incorrect. There are only 60 seconds in a minute. This error was not noticed until after the session. This is the first session on this project.				Don't think we're getting anywhere. (After prodding by interviewer he reported full: tracks, RR tracks, empty storage tank, BTR-50PK.	NOTE: Coordinates provided by tasker were in error. While the error was only a few seconds at most, the coordinates actually indicate an impossible location. It is not a coordinate
