

Project: 8035

Session: DC-

RVer: #7

IVer: #66

040900 Feb 81

On sunny side of large industrial city.
something underground

tower, fenced area, building

* +5 "have him go to the tower."

high pressure tanks

8-9 foot high fence

no trees

#66? what else do you see

trucks, guard post, cement things

big masonry building

seemed underground area - tanks or something

#66 go over there, then look back

tower mechanism

big, very large, but not constructed for

height. big disks or wheels or

something - not radio but radar.

environmental room into it - keeps

people warm

cement drain opening in hill side

* +5 "get's ok. lets move on"

1200, 9 Feb 81

Excavation in south

Something long, linear, quite white
like maybe bot.

Very clean cavity into something
Burial, maybe changed a little.

+ 24 "Right, catch you later"
