REMOTE VIEWING (RV) SESSION DC-29

TIME

#14: This will be a remote viewing session for 4 December 1980; mission time is 1400 hours.

PAUSE

All right #01 the time is now 1400 hours. Your mission for today is to find the individual in the photograph. I want you now to relax, focus, concentrate on the individual in the photo and describe his location to me.

PAUSE

+02 #01: Gettin!..... near a city...perhaps, ah, 150,00 population..... in a building in, in this city, it's, ah.....can't tell what kind....structure, but it's, it's about 10 years old.... semi-, semi-modern in design. There's an exterior wall..... some, ah. ....just a minute. I'm in trouble deciding what floor this building 'as.....like 3 floors, but I can't, I can't tell if he's on the ground floor or if he's in the basement. He is in the basement. 'sides get a below ground feeling there. He's even with the ground. Feel like there's not many cars in this town. Either I'm not seeing.....very many automobiles or anything. Seein' a lot of people walking though, and.....truck, truck vehicles. He's, ah.....not doing anything really activity wise, except .....looks sitting. Not quite sitting either, he's.....sort of half sitting, half relaxing on, on a bench like place in this room. It's apparently is waiting for someone, then he's goin' to leave. He's waiting because.....I think it's what he's asked to do is wait.....

#14: All right #01, at this time I'm going to move you ahead through time at 24 hour intervals. As you're moving through this 24 hour period of time I want you to scan it and describe any significant activities or events that this individual may be doing or involved with. I want you now to slowly proceed forward to the 5th of December, 5th of December scanning as you move.

+05 #01: Okay. Just a minute..... Something to do with master record, recorded information of some kind. He's.....I can't...he's picking it up..... he's exchanging something picking up a master record or..... formatted record of some kind.

#14: Where is this taking place?

#01: Some how he's very, ah, dis:(mumble).....  
appears to be an office in this same building. He's 'changing  
ah....he's exchanging some papers that reflect some material  
that he has for his record. It's like master thing, and,  
ah, they're verifying, ah, the contents o' list of what he's  
trading. I'm gettin' a feeling of great, great risk, risk and  
ah, some form of danger to him that may be just something that  
he's concerned about. Feel like there's other people  
concerned. That this may be, ah, some, like a come-on or  
fake deal or something that might go sour. But, he's tryin'  
to carry this deal out anyway by exchanging something for a  
master record or.....or list of information. Gettin' very  
general feelings on that..... Let me concentrate on that  
a minute. I very hard time holding these, ah, images.  
Just a minute.

PAUSE

+10 #01: I'm getting a feeling like, I think where my confusion is  
coming in is...this guy is, I'm confused about what's,  
this.....guy's part in this deal is, I think there's a  
second party that's gone with the....that has gone to  
carry the printing material and this guy that I'm targeting  
is either part of the deal or he's there already, and he's  
.....coming out with this master record of this information,  
and I, I keep gettin' this concerned for this deal, like  
it might be a....not exactly....true or not exactly....ah....  
I don't know the word.....honest....real. I don't.....

#14: Okay. Tell me about this other person. Describe the other  
person.

#01: Okay. Give me just a minute. Gettin' very gestaltic  
images and they're really hard to, to translate. Just a  
minute.

PAUSE

#01: Ah, this,.....this other person is....is foreign. Not  
American, and is....I keep wanting, for some reason, to, to  
make him like Slovic country type nationality, but.....  
I'm not gettin' any kind of a feeling of Soviet association.  
It's more of a, a remote satellite type association. Ah.....  
just a minute. Bulgarian or Romanian. This guy is...ah...  
maybe coming from one of those countries. He has knowledge  
or information, but I can't, I think one of the reasons  
I'm having difficulty with that is, it's a, ah, it's a  
knowledge rather than a written or a formatted information,

#01: and he's being.....he's making a deal or being bought out by this other man. I think there's a great deal of risk involved with this. Exchange has to take place, and .....the man I'm targeting is gone into this country to carry out the, this exchange, and this is a great cause for risk. I think this person's in hiding that has, he's gone in to get. You know. He's at least restricted in his ability to move about freely or extricate himself from his own situation. So.....this man we sent is do so, and there's, there is risk. And, this is what's going on.It's these strip-this surreptitious meeting is occurring and ... It's, it's really hard to describe because I'm getting feeling more than anything. I'm highly charged emotional tenseness and feeling.

#14: Okay. I want you now to continue moving forward in time to 6 December. As you're moving forward in time, again describe any significant activities or events.

PAUSE

+15 #01: I don't get any differences, but I get a feeling that..... a new feeling. Like concerns finances. I don't know if it's the information that's financial information or economic information, but it's some...I'm getting a financial feeling like money or to some great value...form- some form of great value is exchanging..... I think it's being exchanged. I don't.....give me another minute yet.

PAUSE

#01: Think this is like a payoff of some kind, ah, whatever the value is that is being exchanged it's been done now. The, the grid payoff has been made. I don't get any other differences, in feeling or any kind of significant event than this. I don't, just don't quite understand what the value is.

+20 #14: All right #01. I'm going to move you forward in time again once more for a twenty-four period, twenty-four hour period of time through 7 December 1980, 7 December. I want you to slowly scan that time period describing again any significant activities or events surrounding the individual in the photo.

PAUSE

#01: I'm not getting anything at all now. I'm getting the original building that I started with, and I'm getting a general feeling of entering and just dropping some papers or some folders and leaving. He goes in the door and just moves to an office

#01: and.....like drops some folders or papers, and then .... signs something. And, he picks up a book of some kind. Very small book and then proceeds out, and gets in a, a auto of some kind, and then drives away, leaving. It's like he's finished, and he's just taking care of some errand that has to be done before he can leave..... It's like he's just dropped some things off to a third party; U.S. third party. It's, I can't explain it, but he drops these things off and picks up this book and then he leaves.

#01: I, I have this sensation that it's...for good leaving. He's not.....staying or coming back.....I also get an air travel type feeling to which I don't, I don't know if that's clutter or what it is. But, I get a feeling that there a travel. So, that's all I got, I don't.....

+25

#14: Okay. I want to bring you back to present time from the future, but as I bring you back, I want you to stop off to the place where the exchange of this material took place, and tell me where the location is, and what the surroundings are around there.

#01: Okay. Oh, wait, wait just a minute.

PAUSE

#01: Looks like a beautiful village on a hillside by a large lake. It's like an old area of Pennsylvania, very thick, green forests, and rugged mountains or hills. Somewhere between, wait a minute.

PAUSE

+30

#01: Up past, up past what used to be Constantinople, up through that Isthmas.... north, northern side of the lake, like northeast of where Greece is on a map. I don't, I mean it's too far over to Yugoslavia. It's gotta be Rumania. Ah, coastal village; beautiful village. Gettin' flashes of a ship for some reason. I don't, ah, I don't know what that has to do with it. May be just in the village area. The building is old...castle type building, stone, 3 stories above ground. One of 'em are stories underground. Dates to maybe between 12 and 15 hundred A.D. And, is something like a.....holding area. I don't understand that. ... Holding area, waiting area or, get mixed feelings. It's like...two purpose building.....That's all I'm getting.

#14: Okay. I have no further questions at this time. I want you now to come on back to present time, and then when you're back and you're ready to take a deep breath and stretch, feel free to do so.

#14: We're ready for the drawings at this time.

PAUSE

#01: Okay. This, ah, this building, whatever, I got a feeling like I was looking in a....some kind of a...a wall that went like this, and back of this wall was this large 3-storey building. Like this, and had one of these big...like fancy pillared entrances on a....on a side...very large windows. A monist-like a monistery look to it, I guess. This kind of an affect. I don't, you know that's a very general thing. It was like ...hills or something directly behind it on one side, and very tall tree line, like on the other side.

Back in here...those were like trees. It just looked like an old castle type building. Like, almost like a residence type building...a monistery type building.

#14: Okay. This is the building where the exchange took place?

#01: Yeah. Well, this is the, ah...this is the first building, okay. And, this building is what kept occurring. You know, I don't think the building ever changed.

#14: Okay. So all the activity centered around this, this building.

#01: Yeah. I don't think the building itself ever changed. I just get the feeling like this was like built between 12 and 14 hundred. That kind of building, stone, heavy stone, and very old.

#14: Aha, well, well thattought about do it then.

#01: I don't, ...

#14: I can't think of anything else, ah.

#01: I can give you a general map of the world location.....

#14: Okay. Why don't you do that?

#01: as relates to water and mountains and stuff. Then like.....  
.....more like this was like, for some reason, I guess I was going to the time period of this building or something. I was trying to see where this was, because...I never wanted to say Istanbul. I kept saying, wanting to say Constantinople, okay.....which I don't know how to spell. It would be right here. And, this is the Med....Mediterranean, and this Greece. I had a feeling like this village is like in this area up here. This being Greece, Yugoslavia. I guess this is Rumania. You know, I just got a feeling like it was up here in this Transylvania area, okay...the old Transylvania .....

#01: Yeah. You know, everything is so gestalic in this session, geeze, I, you know. It's almost like.....I was reading feelings more than I was seeing things and, and....like I can't tell if we're, if my target guy has gone in there to bring out information or bring this guy out, you know.

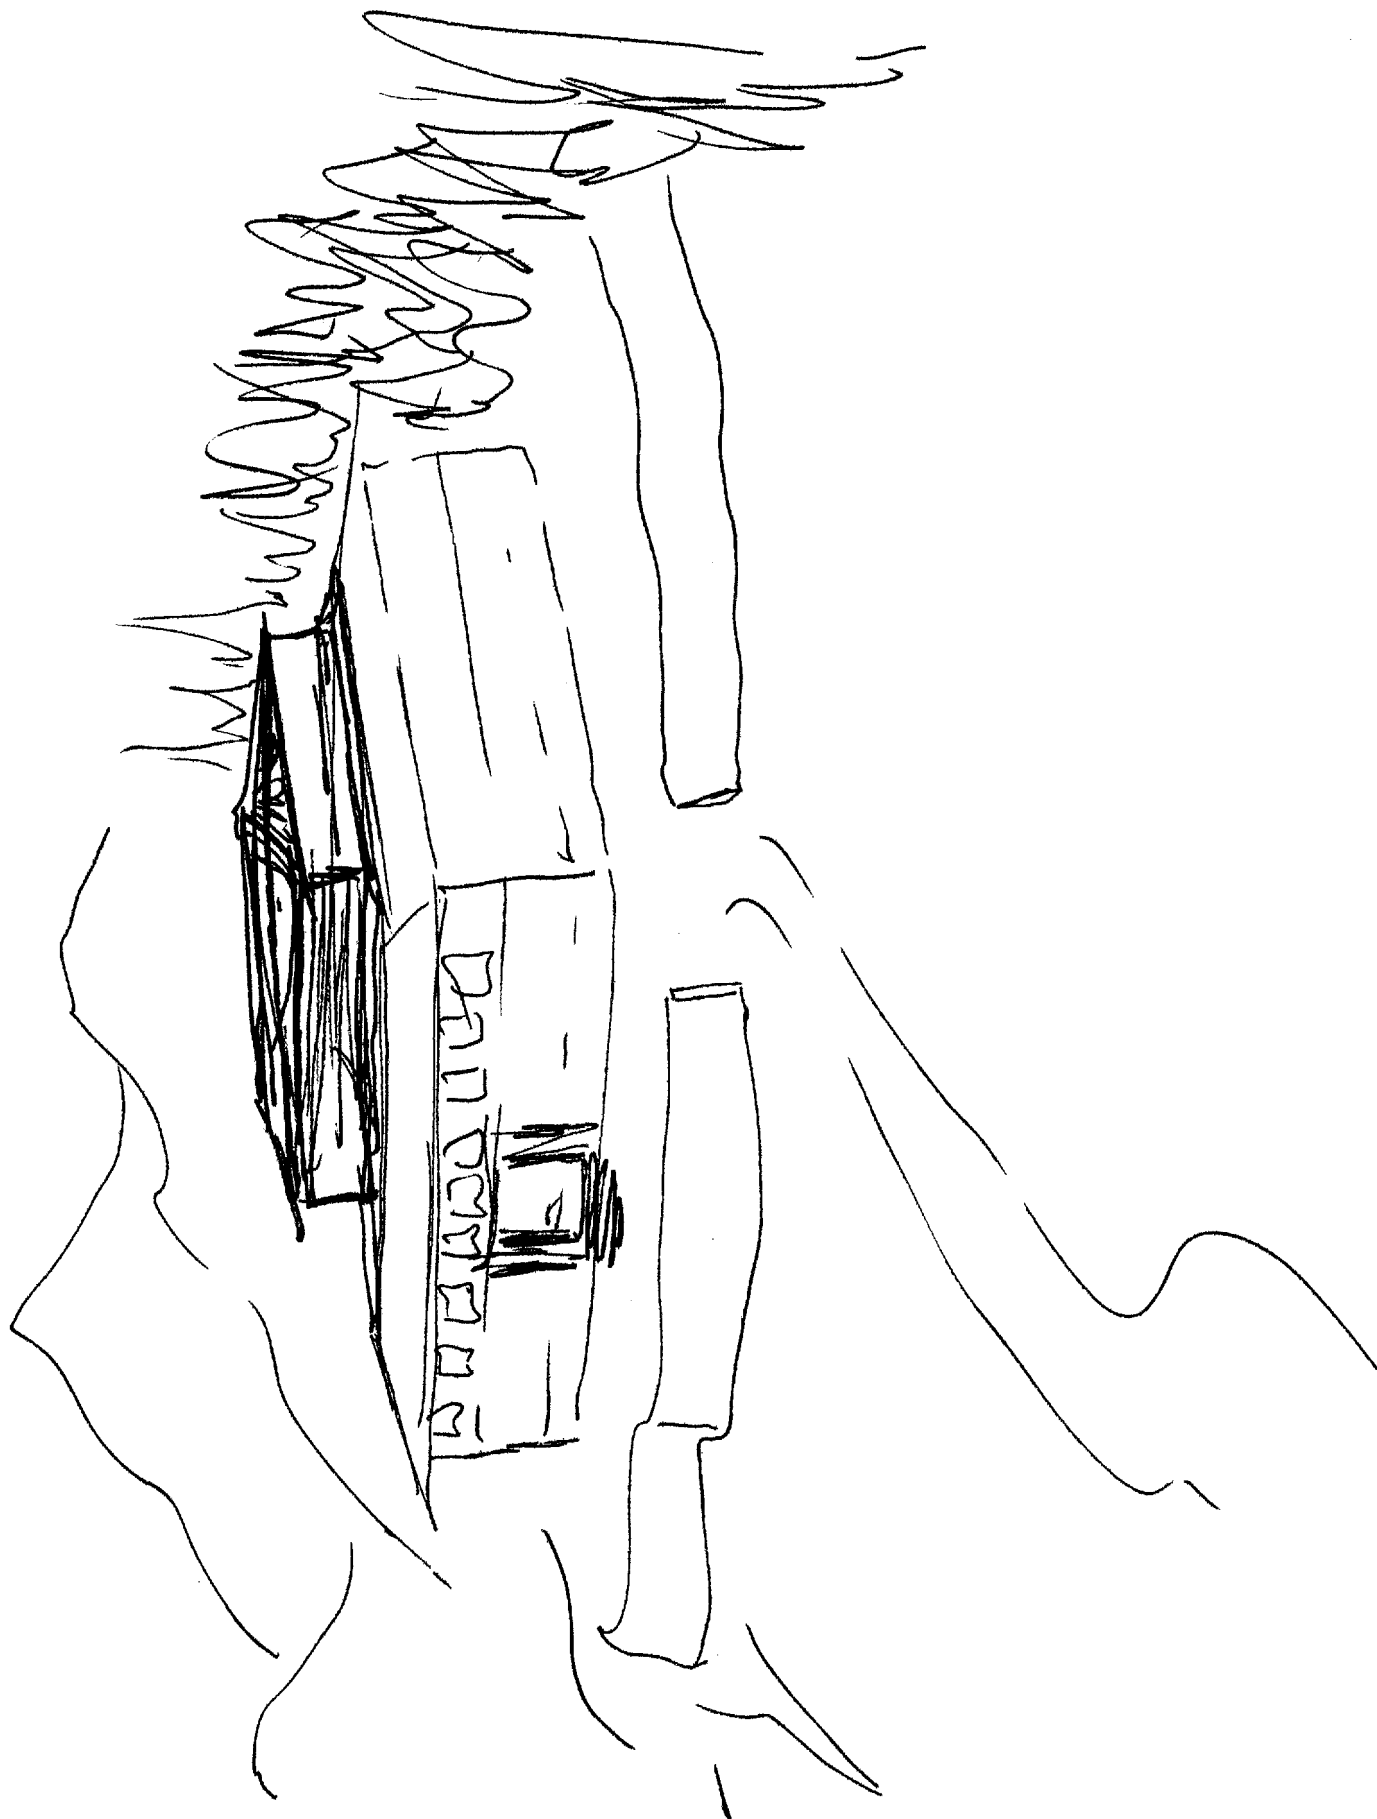

#14: Aha.

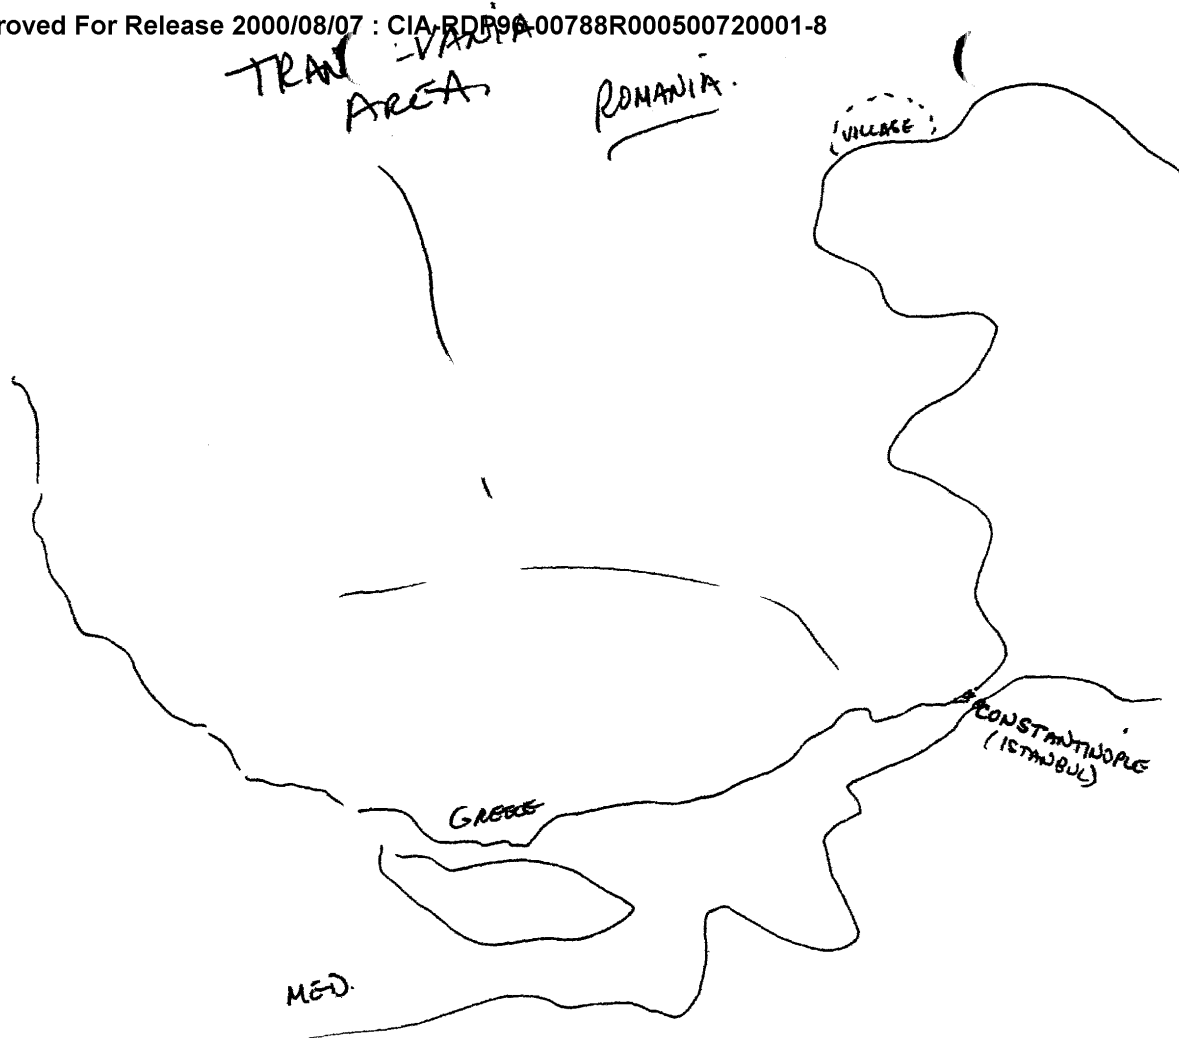

#01: And, and I just can't pin down what it is he's exchanging, other than that, so...you know, one minute I'm thinking monetary value, and the next minute I'm thinking something worth monetary value. I don't know. The more I think about it the more confused I get. Especially now that I'm not in the session itself.

#14: So, okay, end of session.
