ASSETS USED SESSION	SOURCE	TARGETING MATERIAL UTILIZED	KNOWLEDGE PROVIDED TO INTERVIEWER FOR SESSION	FEEDBACK TO SOURCE FOLLOWING SESSION	DATES SESSION FORWARDED	KEY RESULTS PROVIDED BY THE SOURCE	ANALYST COMMENTS
DCC-58	#31	Sealed envelope containing a mimeographed map containing the tgt name, [REDACTED] & an annotation of the tgt site. This approach was used because accurate words were not available. NOTE: This is the second session for this source on this tgt. The first was DCC-41, this is the first time with a sealed envelope.	The interviewer knew that information was required of the tgt identified by a map in the sealed envelope.	None.	21 May 81 9 Jun 81	The source indicated that the tgt area was tundra like, flat, ice sheets, ice ponds, many melt lakes. Upper reaches of globe, up high north. Elevated railway extends to horizon. He indicated that there are many highly reflective structures that look like a point weather test facility. (flat surfaces erected at an angle that is equal to the latitude of the area).	The analyst reported that: This information is of no value. NOTE: The source reported ice ponds, tundra & melt ice. The target is at an [REDACTED] no melt or tundra this time of year or tundra at any time at this target.
