1. (U) References:

- a. (U) DIA Ltr S-1922/DI-1, 7 Aug 80, subject as above. (SECRET)
- b. (U) INSCOM Ltr, IACG, 15 Aug 80, subject as above. (SECRET)

2. (S/NOFORN) As a result of recent discussions held by the DIA level GRILL FLAME Committee, numerous gray areas of the original reference a proposal have been clarified and considerable modification of the proposal has occurred. My original concerns, as expressed in reference b, have been resolved.

3. (S/NOFORN) It is evident that INSCOM's mission requirements would now be fulfilled by the proposed FY81 DIA contract with SRI. This proposed contract is now to include audio analysis (at \$70K) and advanced remote viewer training in the "new" 6 phase method (at \$50K). Under these circumstances, I consider INSCOM participation in the contract effort to be appropriate. INSCOM, DCSRM will MIPR \$120K to DIA upon receipt by INSCOM of the total \$150K FY81 IGFP budget from your office. The remaining \$30K of that budget will be retained by INSCOM for FY81 GRILL FLAME operations and in house training requirements.
