

DOD Evaluation Committee Briefing - 27 September 1979

1. Introduction/Background

- a. Tasking and my background
- b. Early visits to SRI and AMSAA

2. Mission

3. SRI Visit: 15-17 Nov

- a. Initial orientation
- b. Work statement/training
- c. Criteria for selection of subjects

|                        |                   |
|------------------------|-------------------|
| Well thought of        | Adventurous       |
| Above average intel    | Open minded       |
| Thinks well of himself | Successful        |
| Articulate             | Mature and stable |
| "Artistic"             |                   |

d. Witnessed session

4. SRI Visit: 12-15 Dec

- a. Screening potential subjects
- b. Review recent SRI experiments
- c. Review of tapes
- d. Relationship of subject/interviewer
- e. Role of outbound team
- f. Factors that inhibit success

- (1) Prior knowledge of target possibilities
- (2) Absence of feedback
- (3) Doing trivial tasks
- (4) Use of repetitive target sequences

g. Factors that enhance success

- (1) Interest factor
- (2) Seriousness of purpose
- (3) Monitor/interviewer to ask questions
- (4) Practice with feedback

5. Selection of Individuals: Target: 3 individuals

- a. Considered - 251
- b. Interviewed - 117
- c. Initial Results - 30-35 potential candidates
- d. 14 Feb - SRI visited - results
- e. Intelligence background of individuals

WORKING PAPER

Approved For Release 2001/04/02 : CIA-RDP96-00788R002000240026-7

6. Began training late Feb - stopped March
7. Training with SRI - 13 May  
Second phase of training just started
8. Training problems
  - a. Environment
  - b. Work related situations
  - c. Availability
  - d. Frequency
  - e. Time of day
9. Target Selection Process
10. Current Program(s)
  - a. Training at SRI
  - b. "Beacon" situations
  - c. Coordinate work - 3 levels
  - d. "Real" situations
  - e. CDEC training
11. Development of TCC
12. Future Objectives:
  - a. Continue development of individual abilities
  - b. Complete training at SRI (Dec 79)
  - c. Apply RV techniques to "live problems"
  - d. Determine tasking procedures
  - e. Align resources properly
13. Evaluation Report

Approved For Release 2001/04/02 : CIA-RDP96-00788R002000240026-7

①

MISSION STATEMENT

(S/ORCON) To establish a program using psychoenergetics for intelligence applications. Specifically, utilizing that field of psychoenergetics referred to as REMOTE VIEWING. The program encompasses the following:

- Establishing a training program in REMOTE VIEWING utilizing selected INSCOM personnel.
- Establishing procedures for intelligence collection techniques utilizing REMOTE VIEWING.
- Establishing a mechanism for responding to intelligence collection requirements (tasking) using REMOTE VIEWING.

CLASSIFIED BY: Director, DIA

TARGET SELECTION PROCESS

A. TARGETS

1. Location
2. Activity
3. Time

B. METHOD OF TARGETING

1. Beacon (Human and objects)
  - a. Initial target pool
  - b. Random (local)
  - c. Operational designate (i.e. A6E)
2. Geographic Coordinates
  - a. Target Pool
    - (1) "Fun Targets"/Initial Orientation
    - (2) Series 200 Map Targets
    - (3) TK Targets
  - b. Operational Designate
3. UTM Coordinates

C. DEVELOPMENT OF TARGETS

1. Beacon - Initial Target Pool
  - a. 50 Targets selected by individual outside project.
  - b. Secured by another individual.
  - c. How utilized.
2. Beacon - Random
3. Operational Designate
4. Geographic Coordinates -- "Fun Targets"
  - a. Pool designed by NCOIC
  - b. Stored in Safe -- Access limited
5. Geographic Coordinates - Series 200 Map Targets
  - a. Pool designed by Project Manager
  - b. Stored in Safe - Access limited

~~SECRET~~

Approved For Release 2001/04/02 : CIA-RDP96-00788R002000240026-7

6. Geographic Coordinates - TK Targets
  - a. Pool designed by IIPD
  - b. Stored in SSO Area -- Access controlled by SSO.
7. Geographic Coordinates -- Operational Designate
  - a. "Customer" Request
  - b. Data stored in safe - access controlled by Project Manager.
8. UTM Coordinates
  - a. Weekly targets provided by CDEC
  - b. Data controlled by COL Moses, CDEC

Approved For Release 2001/04/02 : CIA-RDP96-00788R002000240026-7

TARGET CORRELATION CHART (TCC)\*

| ASSIGNED VALUE | DESCRIPTION   | RATING              |
|----------------|---|---------------------|
| 1              | Absolutely no target correlation.   | None (0%)           |
| 2              | Drawings, narrative, and feedback reaction have minimal target correlation.                     | Low (15%)           |
| 3              | Increased target correlation, identity of target could not be determined.                       | Low-Moderate (30%)  |
| 4              | Many target correlation factors readily recognizable. Target identity possibilities narrowed.   | Moderate (50%)      |
| 5**            | RV data shows unmistakable correlation to the target. Target possibilities can now be typified. | Moderate-High (70%) |
| 6              | Little or no extraneous RV data present. Target identity can be readily matched.                | High (80%)          |
| 7              | Correct naming of the target.   | Direct Hit (100%)   |

\*Target Correlation Chart (TCC) was established not to prove or disprove Remote Viewing (RV), rather, it was designed to measure RV learning trends and to provide Project Management personnel a readily available management tool.

\*\*Current state-of-the-art indicates this level of expertise is the norm for an experienced Remote Viewer.
