

Problem 3 Summary:

Site is a large, heavily populated city with an international and very old ambience. People at the site are a mixture of nationalities. It is cool and wet, (AOC) like it is raining. There is a lot of noise at the site - traffic sounds, machinery, talking, laughing - and many smells - food, fumes, dampness, and body odors. There is a transit feeling to the site. Streets are narrow and crowded, and there are many tall, narrow white buildings (AOC) like long blocks of row houses. There is a very reserved feel to this city - polite, dignified.

AOC Bush - London

There is a rumbling sound, it's dark. With hollow echoes and there is a feeling of fast movement, almost a whorring. Flicking light and blurs of color. It gives one a very closed in feeling and a dirty feeling, like I want to wash my hands, or not touch anything. This is a public place and is noisy

with a lot of people and a lot of noise.
