ten

5 1/2 more than ten, but relatively not a large number. Concept of influence differs opinions but not widely differing objectives. Some of non-union + politicking, to affect acceptance of industrial outlook or designs.

people are largely on entire scale; some of power, experience and self-confidence + personal authority. Used to being obeyed. A meeting of equals. At least middle-aged, though not sedentary types. People of action, "wheelers + dealers" + being negotiators.

Reminds of a steering committee or oligarchal legislature - more power collectively than a legislature, but not one single person can force all others to accept his views or intentions.
